THE INVALID'S FRIEND.

HOLLOWAY'S PILLS.

Nervous Disorders.

What is more fearful than a breaking down of the nervous system? To be excitable or nervous in a small degree is most distressing, for where can a remedy be found? Here is one:—Drink but little wine, beer or spirits, or far better, abstain from them altogether; do not take coffee—weak tea is preferable; get all the fresh air you can; take three or four of these Pills every night; eat plenty of solids, and avoid the use of elcps. If these golden rules are followed, you will be happy in mind, strong in body, and forget you have any nerves.

Mothers and Daughters.

If there is one thing more than another for which these Pills are so famous it is their purifying properties, especially their power of cleansing the blood from all impurities, and removing dangerous, and renewing suspended secretions. Universally adopted as the one grand remedy for female complaints, these Pills never fail, never weaken the system, and always bring about what is required.

Disorders of the Kidneys.

In all diseases affecting these organs, whether they secrete too much or too little water; or whether they be afflicted with stone or gravel or with aches and pains settled in the loins over the region of the kidneys, these Pills should be taken according to the printed directions, and the Ointment should be well rubbed into the small of the back at bed time. This treatment will give almost immediate relief after all other means have failed.

The Stomach out of Order.

No medicine will so effectually improve the tone of the stomach as these Pills; they remove all acidity, occasioned either by intemperance or improper diet. They reach the liver, and reduce it to a healthy action; they are wonderfully efficacious in cases of spasms—in fact they never fail in curing all disorders of liver & stomach.

Bronchitis, Diphtheria, Coughs, Colds.

No diseases are more frequent, few more dangerous, than affections of the respiratory organs. The first symptoms of disordered action may always be removed by Holloway's renowned Pills. They quickly remedy any temporary stagnation of blood, relieve any over-gorged veins, moderate the hurried breathing and enable the windpipe and lungs to perform their functions with ease and regularity. These Pills, by their purifying powers, cleanse the blood from all impurities, and thus fortify the system against consumption, asthma, and other pulmonary complaints.

Debilitated Constitutions.

In cases of debility, languor and nervousness, generated by excess of any kind, whether mental or physical, the effect of these Pills is in the highest degree bracing, renovating and restorative. They drive from the system the morbid cause of disease, re-establish the digestion, regulate all the secretions, brace the nervous system, raise the patient's spirits, and bring back the frame to its pristine health and vigour.

Biliousness, Loss of Appetite, Head-

ache and Lowness of Spirits.

These Pills effect a truly wonderful change in debilitated constitutions as they create a healthy appetite,

correct indigestion, remove excess of bile, and overcome giddiness, headache, and palpitation of the heart.

Holloway's Pills are the best remedy known in the world

for the following diseases:—

Ague	Female Irreg-	Retention of Urine
Asthma	ularities	Scrofula, or King's
Bilious Complaints	Fevers of all	Evil
Blotches on the	Evil	Sore Throats
skin	Fits	Stone and Gravel
Bowel Complaints	Gout	Secondary Symp-
Colic	Head-ache	toms
Constipation of the	Indigestion	Tic Douloureux
Bowels	Inflammation	Tumours
Consumption	Jaundice	Ulcers
Debility	Liver Com-	Veneral Affections
Dropsy	plaints	Worms of all kinds

NEW WESTMINSTER, TUESDAY, APR. 25, 1865.

THE APPROACHING CELEBRATION.

There is no blinking the fact that the relations subsisting between the whites and the native tribes are not such as entitle us to indulge in self-gratulation. It is now about six years since we practically took possession of the country; and what have we to show for it, so far as the improvement of the aborigines is concerned? We took possession of their lands, drove them, or the game upon which they subsisted, from their hunting grounds, and frightened away their salmon. For all this we tacitly engaged—became morally bound to civilize them, to teach them how to become better men and women, to make them better members of the great human family in this world, and be instrumental in the hands of Providence in fitting them for occupying a better position in the next—the great hunting ground of the unknown future. How has this sacred trust been fulfilled? We have taught them to drink bad whisky and smoke tobacco—schooled their men in debauchery and their women in prostitution—engrafted upon the pagan stock the vices of the white man, but carefully withheld his virtues. We, who claim to be, *par excellence*, the civilizers of the world, engaged to confer the blessings of civilization upon these "ancient lords of the soil" of British Columbia, as some return for what we have wrrenched from them. Civilize them indeed! They have been asked to relinquish their own lands, laws and religion, and we have given them nothing in return—yes, we have given them a stone for bread and a scorpion for an egg. We hang them by our law "like fun," but we forget to accord them the knowledge or protection of that law by which they are judged. They are left in gross ignorance of its requirements, and yet they are held amenable to its pains and penalties. It is said that the Governor is making arrangements to entertain these poor, neglected people, upon the approaching anniversary of the birth of our beloved QUEEN, upon a more extensive scale than last year. We are not of those who believe much in "biscuit and molasses" as an Indian policy. Sir James Douglas was wont to deal largely in that sort of thing. The biscuit and molasses were grateful enough to the savage palate. But the Indians, after partaking of these and listening to the fair promises of the donor, returned to their fastnesses with the laconic remark "*cultus waw-waw*." The natives of this country do not occupy a very high rank in the scale of humanity, but that consideration should excite our sympathy and enlist our philanthropy, instead of shutting up our bowels of mercy against their claims upon us. And yet they are not mere dogs, to be satisfied with a bone to pick once a year. Their mentalism is not of a high order, it is true. Yet they have intellects; and in their way they have a very acute sense of justice, a keen susceptibility of good faith in their intercourse with the whites. We do not wish to be understood as at all objecting to the approaching entertainment. On the contrary, we highly commend what we are anxious to see turned to a good account. The celebration last year made a salutary impression, and the Governor deserves credit for so heartily entering into the spirit of that occasion, so soon after his arrival in the country. The object of these remarks is more to encourage an annual gathering of the native tribes; for we believe that bringing them together to celebrate, *with us*, the natal day of our Sovereign is calculated to accomplish great good. But what we would desire to impress upon His Excellency is this, that there should be something more than "biscuit and molasses" in the affair: that careful and earnest advantage should be taken of such an occasion to teach these people, through their recognised tutelar representatives, that the Government is really solicitous for their welfare, and is ready to extend to them all the protection and advantages and blessings of British law and Britain's religion. Many of those who will be amongst us upon the approaching anniversary will come from the interior, where they have enjoyed little opportunity of becoming acquainted either with our civil or religious institutions. The observant, eagle eye of the red man of the forest will be upon us; and he will carry back with him to his lonely wigwam an impression which will operate either for or against the progress of civilization in this colony—an impression which may exert a serious influence upon our fu-

ture success in dealing with the native tribes. It is desirable, therefore, that on the 24th of May next, not only should suitable presents be made, and carefully considered addresses delivered, but the whites should be upon their good behaviour on that day, and the whole affair conducted in such a manner as will be most likely to impress an inferior race with our superiority, as the result of the civilization and religion of which we are so prone to boast. There is another point which we deem not unworthy the consideration of the Governor. With a native population nearly eight times as large as that of the whites it is most desirable that the natives should be impressed with our superior prowess for purposes of offence and defence in case of war. Once teach them to fear us, as an enemy, and there will be little trouble in managing them. If one or more of Her Majesty's ships of war, now on this station, could be present upon the 24th, and make a display in ball and shell practice in the presence of the assembled tribes of Indians, as if for their entertainment, a most salutary impression might be made. These people would witness with suppressed wonder and awe the terrible effects of the experiment, and they would carry with them into the interior a superstitious respect for us, which would quickly be communicated to other tribes, and would operate as a wholesome preventative of future insurrection. Were some such display as this made, and the whole affair well managed, as if in the regular course of amusement, we are satisfied that more would be accomplished by way of teaching the Indians to fear to make an enemy of the Government than could be attained by a dozen Chilcaten expeditions, and it would possess the important advantage of costing the country nothing.

WELBY ST., VICTORIA.

Important to Business Men in Victoria, California, Portland, and Places on the Sound!

This Journal is the only newspaper published in British Columbia by a resident of the colony. It is published for the Proprietors, J. D. DONN, in Victoria, and L. P. FISHER, in San Francisco, at the office of the Proprietors, on or before May 1st, 1865.

The British Columbian.

NEW WESTMINSTER, TUESDAY, APR. 25, 1865.

T. B. LEWIS ON BRITISH COLUMBIA.—Many of our readers in both colonies will recollect the subject of these remarks. Mr. Lewis left for Oregon last year, and has since been chiefly in and around Portland, from whence we heard of him last fall as one of the most violent maligners of British Columbia and Vancouver Island. Nothing, in short, was left unsaid calculated to deter people from coming here. A recent number of the *Chronicle* contains a long letter from Mr. Lewis, from the tenor of which the unsuspicious reader is led to believe him the champion of British Columbia in that country. We republish the following passage for the amusement of our readers who know "Tom," and who know the things whereof he writes. After alluding in his own peculiar style to the early movements in this colony for political emancipation, resulting in the change of Government for which the colonists now feel so grateful, he says:—

"The people of British Columbia should again resort to 'petition' and request the Home Government to send their Douglas back to them to examine into the corruption and ignorance which have ruined the colonies he left in a most prosperous condition. The mines of British Columbia at present comprise the only stock in trade the colony possesses; they are the undeveloped assets of a bankrupt country, and the miners, under the management of the imbecile intellect at New Westminster, will ruin both the representative and the misrepresented."

THE CELESTIAL SMUGGLERS.—The Chinaman alluded to in our last issue as having been arrested for smuggling opium was tried on Saturday and acquitted, as there was not sufficient evidence to prove an intention to evade the Customs laws. Another Chinaman was, however, fined £25 for being concerned in concealing the opium in question. The revenue officers would do well to adopt the most stringent measures with that class of our immigration, as there can be little doubt that many of them will attempt to bring in a supply of their favorite narcotic about their persons. Indeed it would seem almost necessary that every Chinaman should be thoroughly searched on arriving in the colony, as we understand they have already had recourse to the artifice of secreting opium beneath the lining of their jackets.

MUNICIPAL ELECTION.—Saturday's *Gazette* gives notice that on the 3rd prox. one Councillor each will be elected for Wards 4 and 6 of this city. We may be permitted to point out the absurdity of publishing such notices in the *Gazette* only. How many of the rate-payers of New Westminster ever see the *Government Gazette*? Probably not more than half a dozen. And of these how many will take the time and trouble to search through eight pages of old stereotyped matter for a notice of the kind? Even if these notices were inserted gratuitously in the *Gazette* it would be a mistaken economy; but we believe the Government rates are even higher than those of the local newspapers. And, after all, if we publishers did not generously give these matters gratuitous publicity the Returning Officer would be in great danger of having nobody to return. It's a shabby way of advertising, to say the very least.

A FALSE MONITOR.—With that presumption and indiscretion which too frequently characterize youth and inexperience, our local contemporary undertakes to correct what he is pleased to designate "most extraordinary blunders" in a leading article which appeared in these columns on Saturday upon the subject of the electric telegraph. In his attempt to point out supposed blunders our contemporary has made some real ones. The only inaccuracy which is to be found in our article is the putting of one minute for two, as the time required to transmit one thousand words; and that was a mere typographical error, and was overlooked in proof. We have before us a standard scientific work which informs us that to such a state of perfection has the system been brought, by American science and skill, that a thousand words can be telegraphed in two minutes—not by means of the ordinary instrument, of course, but with "House's printing telegraph."

A JAIL NEEDED.—The man Copeland, to whom we alluded as having been the principal in the shooting affray upon the *Hope* on Thursday, was brought down and lodged in jail here on Saturday, solely, we understand, on account of the insufficiency of the so-called jail at Yale. Thus the colony will be put to the unnecessary expense of bringing him down and sending him back again for trial, conclusive enough proof certainly of the necessity of providing a new jail at that town immediately.

ECCLESIASTICAL.—The Rev. J. Nimmo preached in St. Andrew's Church on Sunday morning, and in the Mary Street Wesleyan Church on Sunday evening, to large and interested congregations. It is matter of regret that a clergyman of Mr. Nimmo's talents should find it necessary to leave these colonies. We understand he will sail for Scotland by the next steamer.

FROM UP-RIVER.—The steamer *Hope* returned from Harrisonmouth yesterday. The water is reported rising considerably. The *Reliance* had gone on to Yale, and was expected back to Harrisonmouth last night to take on another cargo for Yale. She will probably come down to-night. There is no news of importance from the interior.

BY TELEGRAPH.

SPECIAL DISPATCH TO THE "BRITISH COLUMBIAN."

ARKANSAS GOES FOR ABOLITION.

JEFFERSON DAVIS AT AUGUSTA.

PREPARING FOR FLIGHT TO TEXAS.

LAW ON TREASON TO BE ENFORCED IN RICH'D.

SHERMAN ARRANGES ARMISTICE.

ORDERED TO RESUME HOSTILITIES IMMEDIATELY!

LINCOLN'S INSTRUCTIONS TO GEN. GRANT REITERATED.

THE STR. OREGON SAILS TO-PAY FOR VICTORIA.

Dates to the 22nd inst.

The following news from the seat of war reached us over the International Telegraph last night:—

CAIRO, April 21.—Little Rock advices received. There was a quorum of both branches of the Legislature. A Constitutional amendment abolishing slavery in the United States unanimously passed the Arkansas Legislature on the 14th.

NEW YORK, April 22.—Information from Headquarters Army Potomac, 20th, says Johnson's army is completely demoralized since hearing of Lee's surrender. Johnson dared not risk battle.

WASHINGTON, April 22.—The Richmond *Whig* of yesterday says that for some days it has been reported that the so-called Confederate Government, consisting of Jeff. Davis and a handful of his officers, reached Augusta and made a show of re-establishing itself there preparatory to flight to Texas.

MISSISSIPPI DEPARTMENT.—The law for the punishment of treason will be enforced in Richmond.

WASHINGTON, April 22.—Yesterday evening a bearer of dispatches arrived from Sherman's army. An agreement for the suspension of hostilities and a memorandum of what is called a basis for peace had been entered into on the 16th by Sherman with rebel General Johnston. Breckinridge was present at the conference.

A cabinet meeting was held at 8 o'clock in the evening, at which the action of Sherman was disapproved of by the President, the Secretary of War, Grant and every member of the Cabinet. Sherman was ordered to resume hostilities immediately, and was directed that the instructions given to him by the President in the following telegram, which was penned by Lincoln himself on the night of the 3rd March, was approved by Johnston, and was reiterated to govern the action of our military command:—On the night of March 3rd, while Lincoln and Cabinet were at the Capitol, a telegram from Grant was brought to the Secretary of War, informing him that Lee had requested an interview or conference to make arrangements for terms of peace.

Grant's telegram was submitted to Lincoln, who took up his pen and wrote the following, which he submitted to the Secretary of War and the Secretary of State. It was then dated, addressed and signed by the Secretary, and telegraphed:—WASHINGTON, March 3rd.—To Grant.—The President directs me to say he wishes you not to have conference with Lee, unless for the purpose of his army, or on some minor and purely military matter. He instructs me to say that you are not to decide, discuss or confer upon any military questions. Such questions the President holds in his own hands, and will submit them to no military conference or convention. Meantime you are to press to the utmost your military advantages." (Signed) S. W. Lincoln.

PONTIAC, April 22.—The steamer *Wright* leaves this evening for Victoria. The steamer *Oregon* will sail from San Francisco for Victoria on Tuesday afternoon.

ADDITIONAL.

[From the "N. P. Times"]

WASHINGTON, April 10.—Solemn funeral rites and obsequies of the late President Lincoln, took place to-day in the Capitol. Never was greater fealty to memory of illustrious dead demonstrated in the annals of civilization. Citizens poured forth by thousands into the streets, and by 10 o'clock they were in many places impassable. At 2 o'clock the remains were taken to the Capitol, followed by a procession of the military, and placed in the Rotunda, where they lay in state. To-morrow they will be conveyed under escort to Springfield, Illinois.

NEW YORK, April 19.—It is estimated that 12,500 people were in Washington to-day, to witness the funeral ceremonies of President Lincoln.

PAID, Pennsylvania, April 20.—Lyon, United States reliever (7) furnishes the following: Booth was in heading yesterday, and left on train for Tanquana. Means being taken for his arrest, it was kept private for obvious reasons.

NEW YORK, April 20.—Capture of Noble was announced by rebel deserters in Savannah.—On the 14th, Columbus, Ala., was captured by Gen. Thomas' cavalry, after hard fighting with Forrest. Four hundred of his men were captured.—Montgomery is captured.

EX-GOVERNOR FARREL, of Wisconsin, notified Vice-President Johnson of the murder of President Lincoln. Johnson had retired, but as soon as he was notified prompt measures were taken for his protection. But for this action of Governor Farrel, in all probability Vice-President Johnson would have been murdered. An unusual stir was heard in the room adjoining Johnson's, in which an unknown man with pistol and dirk was found.

MOSBY surrendered his forces to General Chapman on the 17th, on terms similar to those granted Lee.

WASHINGTON, April 19.—Secretary Seward was so much better to-day that he was able to be taken from bed and supported at the window, where he witnessed the passing of portions of the funeral procession.—Friedrich Seward is also improving.—Greenbacks, 7½.

The steamer *Wright* sails for Victoria from Portland on Monday evening.

Municipal Council.

Monday evening, April 24, 1865.

The Council met at the usual hour. Members present, the President (Mr. Clarkson) and Councillors Dickinson, Grieve, Ferris, Robson, Tilley and Willie.

Minutes of previous meeting read and confirmed. A communication was read from Mr. Moberly, asking for information respecting the completion of Front Street by the Council.

Moved by Coun. Robson, seconded by Coun. Ferris, and Resolved, That the Clerk be instructed to reply to the communication from Mr. Moberly, informing him that this Council have already fully explained to His Excellency the Governor their position with respect to Front Street, and to express their willingness, after mature consideration and in view of the urgent character of the work, that a portion of the Government grant should be applied to the purpose of completing that street, as the only available means at their disposal.

After making arrangements for improvements on Front Street the Council adjourned.

THE AUCTION ON SATURDAY.—Messrs. Clute & Major's auction sale on Saturday evening was well attended, but the bidding was not very spirited, and the prices obtained rather unsatisfactory. Instead of continuing the auction, as was intended, they will open every day at 10 o'clock, A. M., and dispose of the stock as fast as possible at or below cost. Parties would do well to call early.

Local Improvement.

In a new place like this, where a sparse population is struggling to build up a city on the spot where six short years ago the stalwart first proudly waved their lofty heads, as if in defiance of the puny efforts of man, individual effort is, perhaps, more marked than in larger and older communities. It has been our habit from time to time to make a note of the principal improvements going on in and around the city; and it was in the indulgence of that habit that we noticed, a few months ago, amongst others a very fine dwelling which was at that time projected for Capt. Irving. That building is now about completed, and it is of a character to emit it to a separate notice at our hands. The style of the building may be generally defined as mixed Gothic. With a ceiling 12 feet clear on the ground floor, and a hall 8 feet wide running through the main building it has a drawing-room 16½ x 17½ feet, a parlor 16 x 26, dining-room 18 x 19½, library 11½ x 16½, bed-room 16½ x 16½, kitchen 14 x 19½, with bath-rooms, store-rooms, basement &c., while upon the second floor there are 4 large bed-rooms, with closets &c., very complete. The whole is finished with the very best 3 coat plastering and three coat painting. The cornices are designed and executed by Mr. Syme, of this city, as also the centre piece; and these display an amount of artistic taste and skill not often to be met with in a new country. The drawing-room cornice is enriched by a two-inch banding in the cove, carved into a spiral, intended to represent a ship's hawser, the convolutions of the rope giving a very pleasing play of light and shade; the ceiling is also panelled off from the cornice, the panel having chords of a circle inverted at right angles, which has a very fine effect. The cornice, panel and centrepiece of the drawing-room have the best proportions and most delicate light and shade of any room in the house, if we may except the dining-room. In the centre-piece of the entrance hall is a design from the suggestion of Capt. Irving, who is a Scotchman, from near the border. The artist has blended the rose in bouquet form with the thistle, giving a hexagonal star-like form to the whole, intended to be emblematical of the nativity of the proprietor. Perhaps the most cunning device on the part of the artist is the manner in which he has photographed, so to speak, the exfoliations of the frost on the walls of the hall, thus taking advantage of nature with a peculiarly pleasing effect. The plastering is wonderfully clean and well polished, considering that it was executed in the depth of winter. The walls of the entrance and upper halls are lined off to represent Ashlar, or block stone work. The plans were drawn, and the carpenter work superintended by Mr. T. W. Graham; the plastering, cornices, &c., by Mr. James Syme, and the painting, graining, &c., by Mr. Thomas Stoddard, all of this city, and all deserving great credit for the several parts they have played in producing not only the handsomest, but the best and most home-like house of which British Columbia can yet boast. Capt. Irving has spared neither money nor pains in providing a comfortable home for his family, and we have only to express the hope, in concluding these remarks, that they may be spared to spend many a happy day in it. The total cost will fall little, if any, short of \$10,000.

DECIDEDLY COOL.—Truly might Scotia's immortal Bard sing, and appropriately might Victoria join in the ditty:

"O wad some power the giftie gie us
To see ourselves as others see us," &c.

The following was recently published in a Victoria paper:—"Our Legislature presents a favourable contrast to that of British Columbia. All measures that pass the House of Assembly are well considered and based on the general good; the consequence is, that however slow her progress may be, we are always advancing towards the great end of all good government—sound political economy. We would congratulate our neighbours if we could observe any tendency on their part to follow in our wake; but unluckily for the sister colony her scattered population precludes the possibility of a fair representative government for the present."

Singularly enough in the same paper was found the following description of the manner in which this legislature which we are invited to imitate "advances towards the great end of all good government:—The members yesterday achieved something like distinction on the Incorporation Bill. Our readers will remember that the bill was recommitted on motion of Mr. DeCosmos, in order to correct a few errors in it. During the correcting there had been a short passage at arms between Dr. Helmcken and Mr. DeCosmos, on the occasion of the former moving in effect to throw out the bill, and Mr. DeC. warned the members against the example and object of Mr. Speaker. During the lecture Mr. Dhuene had been either intentionally or unintentionally inattentive, and while the question was being put, as usual for the third or fourth time because some one had not understood it, he was busy writing. The patience of the Chairman, Mr. Bayley, becoming quite exhausted, he, after fair warning, put the motion thus: "All in favor of the motion hold up your hands." Four members did so and all cried to Mr. Duncan to do so too. "Vote! Duncan, vote." Mr. D., looking up from his writing, asked, "What's the question?" "Contrary! Hold up your hands!" cried the Chair. Up went Mr. Duncan's hand with four others, and the motion, which was to save the Bill, was lost. The Speaker and most of the House burst into a roar of laughter. Mr. DeCosmos rises and makes for his hat, retails, tells the House that, after such a pitiful spectacle and as the members don't know what they are doing they had better be dissolved, and with a sensation of conflicting emotion, laughing, scolding, sulking the House adjourned."

TELEGRAPHIC.—We learn that Mr. Libby and Mr. Burrage will leave immediately for Yale, to commence active operations with a force of 50 or 60 men. A notice will be found in another column for axe-men to work upon the logs.

ARRIVALS FROM VICTORIA.—The steamers *Alexandra* and *Caledonia* arrived from Victoria at 3 o'clock this morning, bringing files of Victoria papers up to yesterday morning, which, however, contain no news of interest. A fire, supposed to be the work of an incendiary, occurred on Sunday night, by which three buildings on corner of Courtenay and Government streets were destroyed. The buildings were the property of Mr. E. Picht, of this city, and the loss is estimated at upwards of \$1200.

QUICK DISPATCH.—The telegraph line is getting into good working order. A telegram was received through from Montreal, Canada, yesterday.

FOR THE NORTH-WEST COAST.—The schooner *Langley* arrived yesterday from Victoria with a general cargo for the coast trade.

To the Editor of the British Columbian.

Sir,—Will you have the kindness to contradict a report which appears in your issue of today respecting the bankruptcy of Golding & Co., of which you assert Mr. Golding is the author, and in which there is no truth. In the first place the steamer *Prince of Wales* is not on Anderson, but on Lillooet Lake. In the next the matter is not yet settled, and luckily Mr. Golding ("popular" as he may be) has not yet been appointed to the command of any of the boats on the Lillooet route.

I am, Sir, your obedt servant, C. C. New Westminster, 22nd April, 1865.

[We were undoubtedly in error in placing the *Prince of Wales* upon Anderson Lake; and as for the rest it was the result of a conversation with Capt. Golding, for the correctness or otherwise of which we do not hold ourselves responsible.—Ed.]

PUBLIC NOTICE.

COTTONWOOD & RICHFIELD WAGON ROAD.

SEALED TENDERS will be received at the Lands & Works Office, New Westminster, up to noon of WEDNESDAY, the 31st day of MAY, 1865, for the construction of a Wagon Road connecting the COTTONWOOD RIVER BRIDGE with the road now made to a point about 3 miles from the town of Van Winkle.

The road to follow the present blazed line as far as Davis' Creek, and thence along the valley of Lightning Creek to the point above named. The road will be divided into three sections.

SECTION I.—Extending from Cottonwood Bridge to a point on Lightning Creek where the blazed line of road intersects Capt. Grant's Trail.

SECTION II.—Extending from the last named points to Davis' Creek.

SECTION III.—Extending from Davis' Creek to the termination of the road (now constructed from Richfield), in the vicinity of the 4½-mile post on Captain Grant's Trail.

Parties tendering for more than one section of this work must send in a separate tender for each section.

With each tender must be enclosed a Bond of the person tendering, and of two responsible Sureties with him, for the payment to the Government of the sum of £1,000, conditional on the non-fulfilment by him of the terms of his tender, if accepted.

The lowest or any tender not necessarily accepted. Further particulars can be had by applying at the Lands & Works Office, New Westminster, or at the Magistrate's Office, Quesnelmouth, where the Specifications and form of Bond can be seen.

Tenders to be addressed to the Chief Commissioner of Lands & Works, and superscribed "Tender for Cottonwood and Richfield Road."

In the absence of the C. C. L. W. & S. G. Lands & Works Department, New Westminster, April 21, 1865. ap22d

ALL CURES MADE EASY!!

HOLLOWAY'S OINTMENT.

**Bad Legs, Ulcerous Sores, Bad
Breasts and Old Wounds.**

No description of wound, sore, or ulcer can resist the
healing properties of this excellent Ointment. The
worst cases readily assume a healthy appearance when
this medicine is applied; and the fresh springs
up from the bottom of the wound, inflammation of the
surrounding skin is arrested, and a complete and per-
manent cure quickly follows the use of the Ointment.

Piles, Fistulas and Internal Inflam-
mation.

These distressing and weakening diseases may with
certainty be cured by the sufferers themselves, if they
will use Holloway's Ointment, and closely attend to the
printed instructions. It should be well rubbed upon
the neighbouring parts, when all obnoxious matter will
be removed. A poultice of bread and water may some-
times be applied at bed time with advantage; and most
scrupulous cleanliness must be observed, if those who
read this paragraph will bring it under the notice of
such of their acquaintances whom it may concern, they
will render a service that will never be forgotten, as a
cure is certain.

Rheumatism, Gout & Neuralgia.

Nothing has the power of reducing inflammation and
subduing pain in these complaints in the same degree
as Holloway's cooling Ointment and purifying Pills.
When used simultaneously they drive all inflammation
and depravities from the system, subdue and remove
all enlargement of the joints, and leave the sinews and
muscles lax and uncontracted. A cure may always be
effected, even under the worst circumstances, if the use
of these medicines be persevered in.

**Eruptions, Scald Head, Ringworm &
other Skin Diseases.**

After fomentation with warm water, utmost relief and
speediest cure can be readily obtained in all complaints
affecting the skin and joints, by the simultaneous use of
the Ointment and Pills. But it must be remembered
that nearly all skin diseases indicate the depravity of
the blood and derangement of the liver and stomach,
consequently, in many cases, time is required to purify
the blood, which will be effected by a judicious use of
the Pills. The general health will be readily improved,
although the eruption may be driven out more freely
than before, and which should not be promoted; per-
severance is necessary.

**Sore Throats, Diphtheria, Quinsey,
Mumps & all other Derangements
of the Throat.**

On the appearance of any of these maladies the Oint-
ment should be well rubbed at least three times a day
upon the neck and upper part of the chest, so as to
penetrate to the glands, as salt is forced into meat;
this course will at once remove inflammation and ulcera-
tion. The worst cases will yield to this treatment by
following the printed directions.

**Scrofula or King's Evil and Swelling
of the Glands.**

This class of cases may be cured by Holloway's puri-
fying Pills and Ointment, as their double action of puri-
fying the blood and strengthening the system renders
them more suitable than any other remedy for all com-
plaints of a scrofulous nature. As the blood is impure
the liver, stomach and bowels, being much deranged,
require purifying medicine to bring about a cure.

Both the Ointment and Pills should be used in the following

cases:
Bad Legs. Chapped Hands. Scalds.
Bad Breasts. Contracted and Stiff Joints. Sore Nipples.
Burns. Stiff Joints. Sore-throats.
Rings. Elephantiasis. Skin-diseases.
Bite of Mosquitoes. Fistulas. Scurvy.
and Sand-Flies. Gout. Sore-heads.
Coco-bay. Glandular Swel- Tumors.
Chiego-foot. lings. Ulcers.
Corns (soft). Limbago. Wounds.
Cancers. Piles. Yaws.
Chilblains. Rheumatism.

Sold at the establishment of PROFESSOR HOLLOWAY
244, Strand, (near Temple Bar) London, and by all re-
sponsible Druggists and Dealers in Medicines through-
out the civilised world, at the following prices:—Is.
12d., 2s. 9d., 4s. 6d., 11s., 22s., and 33s. each Pot.
